

Bloor Street West Partial Closure

Extended to August 31, 2024

Please note that dates and times are approximate, and work could be rescheduled.

Project Overview

The Davenport Diamond Guideway project supports Metrolinx's GO Expansion program, enabling two-way, all-day frequent service on the Barrie GO Line.

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

What You Need to Know

Long-term partial closure will be required on Bloor Street West under the Metrolinx bridge, west of St. Helens Avenue and east of Ruttan St., for the THESL feeder relocation from the existing civil ductbank to the new south ductbank.

Partial lane closures will be required from Thursday, March 7 to Saturday, August 31. During the partial closures, traffic will be shifted but will remain open in both directions, and both sidewalks will always remain open for pedestrians.

WHAT TO EXPECT

- Local residents can expect construction activity, noise, and lights. The work being performed will require construction equipment and operating machinery. These disturbances can be expected at any time.
- Work will be conducted as quickly and efficiently as possible to minimize disturbance but residents and businesses in the area can expect to hear noise caused by vehicles, equipment, machinery, and crews.

HOURS OF PARTIAL CLOSURE

- 00:00 - 23:59

PEDESTRIAN DETAILS

- No impacts to pedestrians during partial closures.

TRAFFIC DETAILS

- Vehicular traffic can be expected to experience narrow lanes. Bloor Street West will remain one lane for vehicles travelling east and west.
- Bike lanes will be closed; therefore, all road users are expected to follow the rules accordingly.
