

Equipment Removal at King-Bathurst

Expected start date: August 22, 2024

Hours of work: 6:00am - 9:00am

Expected completion: August 22, 2024

Drill rig disassembly and removal in process from King-Bathurst.

What to expect

- Crews are preparing to remove a drill rig off-site from the future south King-Bathurst station site.
- Piling at both station sites is now complete, and the drill rig that was used to complete piling activities will be loaded onto an oversized flatbed truck within the site for removal.
- The flatbed truck is expected to arrive before 6:00 a.m. due to equipment delivery restrictions during peak traffic hours. The works would be completed before the afternoon rush hour.
- Potential temporary lane and sidewalk restrictions may be required for crews to safely guide and assist the construction vehicle to enter and leave the Bathurst Street and Stewart Street access gate.

- Traffic control personnel will assist the maneuvering of the oversized flatbed vehicle entering and exiting the sites, ensuring the safety of pedestrians, cyclists, vehicles and public transit at all times.
- Any sidewalk and lane restrictions will be temporary and intermittent, and regular traffic (pedestrian, cycling, vehicle, public transit) will resume after the oversized flatbeds and construction vehicles clear the entry and exit point of the site.
- TTC service in the area will not be affected by this work.
- All the necessary permits have been obtained.
- Equipment demobilization may be postponed or rescheduled due to unforeseen circumstances.
- For more information about upcoming station work please see metrolinx.com/Ontarioline or sign up for the e-newsletter.

About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer car trips each day.
