

# King City GO: Weekend Overnight Jet Grouting

September 20<sup>th</sup> – September 24<sup>th</sup> (10:00PM Friday-5AM Tuesday)

## Project Overview:

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections.

Across the entire network, our goal is to deliver over 10,000 train trips a week - so you will not need a schedule because you know the next train will be coming soon.

## What You Need to Know:

We will be working overnight Friday to Tuesday at King City GO to conduct soil improvements through jet grouting.

## What to Expect:

Contractors will be working to reinforce the ground through jet grouting which will support future project infrastructure. **This work will occur in the rail corridor and must take place over the weekend during a major track closure for safety reasons.** Residents may experience noise and vibration from the use of heavy construction equipment including generators and drill rigs.

Our best efforts will be made to have equipment only running when in use to reduce idling noise and prioritize the demolition work during the daytime to mitigate nighttime noise disturbances.

We understand that we are conducting work near a residential area and that overnight work is not ideal. We appreciate your patience and will complete this work as efficiently as possible to get things back to normal for you.

## Questions:

We have a dedicated community relations team in place to collaborate with residents and businesses in the York Region. If you have any questions or concerns about this work, please contact us anytime at [YorkRegion@metrolinx.com](mailto:YorkRegion@metrolinx.com).
