What is happening?

Reconfiguration of E.T. Seton Park Archery Range

- **UPDATE:** Due to unforeseen challenges in finalizing project details and additional work requirements, the reconfiguration has been extended for an additional week.
- Metrolinx is undertaking the construction of the West Don Crossing bridge structure as part of the Ontario Line project.
- To accommodate the work, part of the construction area will encroach onto the E.T. Seton Park Archery Range.
- This will require the temporary short-term closure of the archery range to reconfigure its layout to ensure public and worker safety during construction of the Ontario Line.
- The reconfiguration began on September 9, 2024 and will result in the installation of construction fencing around the archery perimeter.
- The lanes will be spaced 12.5 meters apart. The measurement of the lanes will be as follows.
 - Two (2) lanes measuring 18 meters.
 - Two (2) lanes measuring 30 meters.
 - Two (2) lanes measuring 50 meters.
 - One (1) lane measuring 60 meters.
 - One (1) lane measuring 70 meters.
- Please see image below for more details.

East York Town Centre

45 Overlea Blvd., Toronto, ON M4H 1C3
Unit 153 (across from the Rogers store)

General hours:

Monday – Friday, 9 a.m. – 5 p.m.

What to expect

- The E.T. Seton Park Archery Range will be closed for up to three weeks, pending good weather conditions.
- Every effort will be made to complete the work earlier than the stated completion date to minimize the impact to the range users.
- During the closure, the archery range will be reconfigured to accommodate the laydown of the construction area and the installation of construction fencing.
- Construction activities encroach on approximately one quarter of the existing archery range and the reconfiguration is to ensure optimum safety during construction.
- After reopening of the archery range, users may see an increase of construction traffic in the vicinity of the area.
- Dust and vibration levels from construction activities will be monitored to mitigate any potential impacts to archery range users.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
