

# Access road construction at the Eastern Avenue Bridge

**Expected start date:** starting as early as Wednesday, September 25, 2024

**Expected duration:** approximately two weeks

**Hours of work:** Monday - Friday, between 7 a.m. - 7 p.m.

## What is happening?

- As early as Wednesday, September 25, 2024, a new access road will be built at 356 Eastern Avenue.
- Excavation, grading, and compaction work will be required to construct the new access road.
- Once completed, construction vehicles will enter and exit the rail corridor via Eastern Avenue, and the access road on the other side of the Eastern Avenue bridge will be closed.
- No tree removals are required to build this access road.
- Work will take place Monday to Friday between 7 a.m. - 7 p.m.

## What to expect

- Noise from construction equipment including loaders, excavators, trucks, and other equipment.
- Compaction work will be required to ensure the stability of the access road. This may cause vibrations to be felt in nearby properties.
- Advance signage will be in place to direct vehicles, pedestrians, and cyclists.
- Traffic barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Work may be delayed due to weather conditions or unforeseen circumstances.

## About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
