

Bloor Street West Partial Closure

October 1, 2024 - November 30, 2024

Please note that dates and times are approximate, and work could be rescheduled.

Project Overview

GO service is expanding to serve you better - with more frequent service, more stations, cleaner technology, and more connections. GO Expansion will transform the GO rail network from a commuter service into an all-day, rapid system.

The Davenport Diamond Guideway project supports Metrolinx's GO Expansion program, enabling two-way, all-day frequent service on the Barrie GO Line.

What You Need to Know

A partial will be required on Bloor St W under the Metrolinx bridge, west of St. Helens Ave. and east of Ruttan St., for street lighting installation.

Partial lane closures will be required. During the partial closures, traffic will be shifted but will remain open in both directions. The north sidewalk will be closed during construction, pedestrians will be detoured by signage located at Lansdowne Ave. and Symington Ave.

WHAT TO EXPECT

- Local residents can expect construction activity, noise, and lights. The work being performed will require construction equipment and operating machinery. These disturbances can be expected at any time.
- Work will be conducted as quickly and efficiently as possible to minimize disturbance but residents and businesses in the area can expect to hear noise caused by vehicles, equipment, machinery, and crews.

HOURS OF PARTIAL CLOSURE

- October 1, 2024 - November 30, 2024
- 00:00 - 23:59

PEDESTRIAN DETAILS

- The North sidewalk will be closed during construction. There will be detour signage located at Lansdowne Ave. and Symington Ave.

TRAFFIC DETAILS

- Vehicular traffic can be expected to experience narrow lanes. On Bloor St. W one lane will remain open for vehicles travelling east and west.
- Bike lanes will be closed; therefore, all road users are expected to follow the rules accordingly.
