

Tree Removal Near Pape Station

Expected start date: As early as Monday, September 30, 2024

What is happening?

- To continue excavation for a future Ontario Line connection at Pape Station, crews must remove 2 small trees outlined in the map above. These trees are located on Metrolinx-owned property near Pape Station.
- Starting as early as September 30, crews will begin removing the tree near Gertrude Place and the tree near 743 Pape Avenue.
- Metrolinx's Vegetation Guideline specifies that for every one tree removed, three more trees will be planted. This guideline is used across our network to ensure more trees are planted than removed as we carry out the largest transit expansion in the history of the region.
- Tree removal will take place during daytime hours.

What to Expect

- 2 trees will be cleared and removed within the work area.
- All required permits have been obtained for the tree removals.
- Environmental experts will be on-site to ensure tree removal is carried out in accordance with regulatory requirements. People near the sites may hear noise caused by chainsaws and woodchippers.
- Short-term traffic interruptions can be expected while trucks and equipment enter and exit work zones; traffic control personnel will be present to direct vehicles and pedestrians.
- There will be no impacts on TTC bus or subway service from this work.
- This work may be delayed due to inclement weather and/or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
