

Utility Relocations at 95 Dunning Avenue - Phase 1

Schedule: August 12, 2024 - September 2, 2024

Timing: Monday to Friday, 7:00AM - 5:00PM

Aurora GO Station Improvements

As part of the GO Expansion project, improvements are coming to Aurora GO Station. Improvements include constructing a second platform, installing a second track, upgrading rail signals, building a new pedestrian tunnel with elevators, and installing tactile tiles on the existing east platform for improved accessibility.

To support these improvements, Metrolinx contractor **Grascan Construction Ltd** will begin underground and overhead utility work at 95 Dunning Avenue.

What is happening?

Contractors will be working at 95 Dunning Avenue, specifically conducting trenching and electrical conduit work. This is in preparation of Alectra's future work to move the existing overhead utility lines underground.

Grascan will be using equipment such as loaders, excavators, boom, and dump trucks to conduct the utility relocations within the work area.

Find us on Twitter [@Metrolinx](https://twitter.com/Metrolinx)

Visit the website: www.metrolinx.com/Aurora

As with all construction, work may be adjusted, rescheduled or extended due to weather conditions or unforeseen circumstances.

What to expect

Tenants near the work site can expect to experience noise and vibration associated with general construction activities.

Access to the building will be maintained throughout the duration of the work. At the end of each shift, Grascan will utilize steel plates to cover the trench and maintain driveway access.

Questions

We have a dedicated community relations team in place to work with residents and businesses in the York Region. If you have any questions or concerns about this work, please contact us anytime at **YorkRegion@metrolinx.com**.
