

Utility Relocations at 95 Dunning Avenue - Phase 2

Saturday, September 28th - Tuesday, October 1st

Aurora GO Station Improvements

As part of the GO Expansion project, improvements are coming to Aurora GO Station. Improvements include constructing a second platform, installing a second track, upgrading rail signals, building a new pedestrian tunnel with elevators, and installing tactile tiles on the existing east platform for improved accessibility.

What is happening?

To support the second track installation at Aurora GO, **Alectra Utilities** and **Grascan** will be relocating the power to the underground utility lines that were recently installed in August. This will require temporarily disconnecting the existing utility service at 95 Dunning Avenue.

What to expect

Businesses will be without power on Saturday, September 28th from **7:30am to 11:30am** while Alectra begins the transition of service from overhead to underground. Throughout the weekend and all-day Monday, the building will be powered by a generator to minimize impacts to businesses during regular working hours.

As with all construction, work may be adjusted, rescheduled or extended due to weather conditions or unforeseen circumstances.

Grascan will be onsite from Saturday morning to Sunday evening to remove existing overhead utility poles that are no longer required.

Alectra will return on Monday, September 30th at **11:45pm** to complete the transitions to underground service. This will last until **4:00am** Tuesday morning and businesses will be without power again during this time.

For businesses running outside of regular working hours, tenants can expect to experience noise associated with general construction activities and equipment.

Every effort will be made to minimize disruption. We appreciate your patience and will complete this critical work as efficiently as possible to get things back to normal for you.

Questions

We have a dedicated community relations team in place to work with residents and businesses in the York Region. If you have any questions or concerns about this work, please contact us anytime at **YorkRegion@metrolinx.com**.
