

Dundas Street East weekend road closure for bridge reconstruction

Dates and hours of work:

- Friday, November 15, 2024 at 8 p.m. until 6 a.m. on Monday, November 17, 2024.
- Friday, November 29, 2024 at 8 p.m. until 6 a.m. on Monday, December 1, 2024 (tentative)

What is happening?

- Dundas Street East will be closed on the following weekends:
 - Friday, November 15, 2024, at 8 p.m. until 6 a.m. on Monday, November 17, 2024
 - Friday, November 29, 2024, at 8 p.m. until 6 a.m. on Monday, December 1, 2024
- These road closures are required to install the girders for the new bridge deck.
- Girders are large steel beams that will be installed between the two sides of the bridge to support the weight of the trains travelling above.
- Overnight work will be required to install the bridge girders.
- More disruptive work will be scheduled during the day to minimize overnight noise.

Traffic and pedestrian details

- No traffic, pedestrian, or cyclist access will be permitted beneath the Dundas Street East bridge.
- Access for residents and businesses (local traffic) will be maintained east of Broadview Avenue and west of Logan Avenue.
- Signage indicating that Dundas Street East is closed except for local traffic will be posted at Broadview Avenue and Logan Avenue to direct drivers.
- Traffic will be diverted both ways via Broadview Ave., Queen St. E., Logan Ave. and Carlaw Ave.
- Cyclists will be diverted both ways via Boulton Ave., Degrassi St., First Ave., Gerrard St. E., and Logan Ave.
- Advance signage will be in place to notify drivers, pedestrians, and cyclists of the closure.
- Paid Duty Officers will be stationed at each end of the road closure to help vehicles and pedestrians navigating the area.

What to expect

- The new bridge girders will be lifted into place by a crane.
- Once the girders are in place, crews will install them using hand tools such as drills and welding equipment.
- Noise from construction equipment including cranes, flat bed trucks, and hand tools, can be expected.
- Noise mitigation measures, including temporary noise barriers and noise reducing equipment, will be implemented as required.
- After the girders are installed, and the road closures are completed, crews will pour the concrete that will form the new bridge deck.
- Clear traffic control signage will be in place to direct vehicles and pedestrians.
- Traffic control measures such as barrels, fencing, and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
