

Maple GO Station: Notice of Crossing Removal on McNaughton Road

11PM on Wednesday, November 13, 2024-11PM on Saturday, November 16, 2024

What is happening?

Metrolinx will implement a full road closure to remove the west track at the level crossing on McNaughton following community feedback received after the October work block. A traffic management plan will be in place to direct traffic around the road closure for this period. The second track will be re-installed in 2025.

What to expect

Nearby residents may experience limited noise from construction equipment such as an excavator, saw, smooth drum roller, asphalt, and spreader. Minor traffic impacts may occur during the full lane closure. A traffic management plan will be in place and paid duty YRP officers.

We understand that we are conducting work near a residential area and that overnight work is not ideal. We appreciate your patience and will complete this work as efficiently as possible to get things back to normal for you.

Questions

We have a dedicated community relations team in place to work with residents and businesses in the York Region. If you have any questions or concerns about this work, please contact us anytime at YorkRegion@metrolinx.com.
