

Maintenance Operations on Pembroke Street and George Street

Expected start date: As early as January 12, 2024

Expected duration: Approximately one week

Hours of work: Weekdays from 7 a.m. to 7 p.m.

- Work Zone
- Flag Persons
- Lane Reduction Ahead
- Open Sidewalk
- Closed Sidewalk
- Traffic Control Barrier

****REFER TO NEXT PAGE FOR ADDITIONAL DETAILS****

What is happening?

- Work crews will be performing maintenance on geotechnical monitoring devices located on Pembroke Street and George Street in preparation for future construction of the Ontario Line (refer to map on previous page for work locations).
 - This maintenance work is necessary to ensure reliable geotechnical information from underground monitors can be obtained during the construction of the Ontario Line subway tunnels.
 - Work is expected to take place during daytime hours on weekdays between 7 a.m. and 7 p.m.
-

What can I expect and how will it affect me?

- George Street will be reduced to one lane at Britain Street with two-way traffic maintained. Flag-persons will be present to direct traffic and pedestrians and ensure their safety.
 - One-way, southbound traffic on Pembroke Street will be maintained.
 - There will be intermittent closures of sidewalk and traffic lanes around active work zones; only one section will be closed at a time to minimize impacts.
 - Access to residential and commercial units will be maintained.
 - Nearby residents and businesses can expect to hear noise related to a hydrovac truck. Crews will take measures to minimize noise impacts wherever possible.
 - After each work shift, each area will be securely covered and marked for safety until workers return or the work is complete. The areas will be returned to public use upon completion of the maintenance operations.
 - Clear signage will be posted for pedestrians and motorists.
 - All the necessary construction permits have been obtained.
 - Work may be delayed or rescheduled due to unforeseen weather conditions.
 - For more information about upcoming station work please see [Metrolinx.com/Ontarioline](https://www.metrolinx.com/ontarioline) or sign up for the e-newsletter.
-

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
