

# Emergency Water Main Repairs on Gowan Ave – Water Service Shutoff

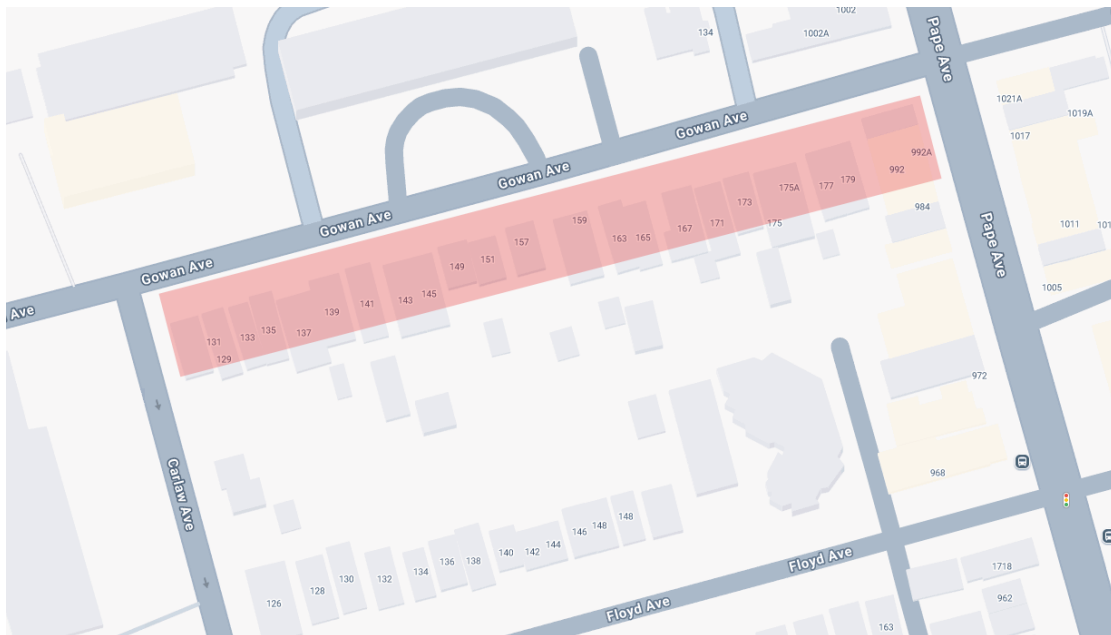

**Date:** January 7, 2025

**Time:** 9 AM – 5 PM

## What is happening?

On January 6, a small water main break occurred within the Metrolinx work site on Gowan Avenue. The water main is located underground within our work site adjacent to the trench currently being worked on by Clearway.

To fix the break, repair crews will be on site on Tuesday, January 7 from 9 AM to 5 PM. **During this time, water service will be temporarily shut off to all properties on the south side of Gowan Avenue between Carlaw and Pape – 127-179 Gowan Avenue, and 992-1000 Pape Avenue.** Service will be restored once repairs are completed.

*Affected properties shown in red.*
