

# Lakeshore East Rail Corridor: Weekly In-Corridor Work Update

Update for the weeks of: Saturday, January 25 to Saturday, February 8, 2025

**Hours of work:**

- Daytime: Monday- Friday, with occasional weekend work, from 7 a.m.- 7 p.m.
- Overnight: Monday - Sunday from 8 p.m.- 5 a.m. (nights of work depend on activity - further details below).

**This notice provides an update on the work happening in the rail corridor over the next two (2) weeks. It is updated every Friday.**

**What is happening?**

Construction work is underway in the Lakeshore East rail corridor to prepare for the future Ontario Line. This notice provides a progress update on the works taking place in the rail corridor. **Certain construction activities may cause noise and vibration at nearby properties. For further details, please carefully review the information provided in the table below.**

| Overnight Work (Monday - Sundays, 8 p.m. - 5 a.m.)                    |  |  |
|---|--|--|
| Date  | Location   | Activity   |
| Monday January 27 - Saturday February 8, 2025 (weekdays and weekends) | Within the rail corridor between Thackeray St. and Pape Ave. | <b>Track work</b><br>Removing tracks and constructing a track crossing at Pape Avenue. |
| Monday January 27 - Friday February 7, 2025 (weekdays)                | Gerrard St. and Carlaw Ave. bridge                           | <b>Bridge repairs</b><br>Excavation and material removals to repair the bridge deck    |

| Daytime/Evening Work<br>Monday- Friday, with some weekend work as noted below, from 7 a.m. - 7 p.m. |                             |   |
|---|-----------------------------|---|
| Date  | Location                    | Activity  |
| Saturday January 25 - Saturday February 8, 2025 (weekdays and weekends)                             | Dundas and Logan bridges    | <b>Formwork, rebar installation, and concrete works</b><br><b>Between Jan 27 - Jan 31:</b> Periodic sidewalk closures on Dundas St. E. for concrete pours.                            |
| Monday January 27 - Friday, February 7, 2025 (weekdays)   | Booth Ave. and Paisley Ave. | <b>Noise barrier installation and OCS foundation work</b><br>Drilling footings for noise wall posts and building OCS pole foundations<br><br>*Residents in nearby properties may feel |

|  |   | vibrations during compaction work; noise and vibration monitoring is in place to ensure regulatory limits are maintained.  |
| ● Monday January 27 - Friday, February 7, 2025 (weekdays)                | Within the rail corridor between Logan Ave. and Jones Ave.          | <b>Grading work and OCS foundation work</b><br>Leveling and laying track ballast and granular material. Installing foundations for OCS poles.  |
| ● Monday January 27 - Friday, February 7, 2025 (weekdays)                | Within the rail corridor north and south of the Queen Street bridge | <b>Secant Piling at Queen bridge</b><br><b>Jan 27 - 28:</b> Noise wall installation and prep work<br><b>Jan 29:</b> Start pile drilling for the future Riverside-Leslieville Station<br><br>*Residents in nearby properties may feel vibrations during compaction work; noise and vibration monitoring is in place to ensure regulatory limits are maintained. |
| ● Monday January 27 - Saturday, February 8, 2025 (weekdays and weekends) | Within the rail corridor between Dundas and Logan bridges           | <b>Retaining wall construction</b><br><b>Placing concrete blocks (T-walls), backfilling and compacting granular material</b><br><br>*Residents in nearby properties may feel vibrations during compaction work; noise and vibration monitoring is in place to ensure regulatory limits are maintained.   |

### What to Expect

- Overnight work is required to complete activities that construction crews cannot do safely while trains are active and running in the corridor.
- Excavators, trucks, compactors, loaders, skid steers, and mobile cranes will be used to complete daytime work activities.
- Residents in nearby properties may experience noise and vibration from the work; monitoring is in place to ensure levels stay within acceptable limits.
- Various mitigation measures will be implemented to reduce disruption.
- Overnight site lighting will be positioned downward into the rail corridor and away from residential properties.
- Construction equipment and materials will be secured within the work zones.
- Work may be rescheduled due to inclement weather and/or unforeseen circumstances.
- Work locations are subject to change and may vary based on site conditions and/or schedule requirements.

### About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
