

Construction Update

Traffic and Sidewalk Impacts at Dundas Street and Hurontario Street

**What work is taking place?**

Construction is continuing in the vicinity of the Dundas Street and Hurontario Street intersection, and we would like to highlight the ongoing and upcoming works in the area. Road widening to accommodate the guideway is continuing at the intersection and is anticipated to complete by mid March. During this work crosswalks and sidewalks will be impacted for short durations. Please follow the instructions of Paid Duty

Officers (PDOs), flag persons and onsite Mobilinx team members to safely navigate during construction. For everyone's safety, pedestrians are reminded to cross the roadway only at designated areas.

Excavation for tracks in the middle of the roadway between King Street and south of Dundas Street is anticipated to begin in March 2025. As construction dates are finalized, notification will be provided to the community and commuters. During the initial phase of these works traffic lanes will be reduced in both directions.

Electrical duct banks will be installed at the southwest corner of the intersection in March 2025 and will last for approximately five weeks. During these works a temporary pedestrian pathway will be installed.

Please note that that it is prohibited for the public to enter construction areas.

Please note, work may be rescheduled due to weather or unforeseen circumstances. If you require the most up-to-date information, please reach out to peel@metrolinx.com

TIMING

- Crosswalks and sidewalks will be impacted for short durations.
- Work could be rescheduled and delayed due to weather conditions or unforeseen circumstances.

TRAFFIC DETAILS

- Traffic lanes will be impacted. Please follow the signs.
- Motorists are advised to use alternate routes.

TRANSIT DETAILS

- Please visit www.miway.ca for more details.

PEDESTRIAN DETAILS

- Please take care when walking or cycling near construction areas and watch for additional signs directing the public such as detours and dismounting.
- Be sure to only cross the street at designated crosswalks. Always look both ways and wait for the walk signal. Press the button to activate the signal.
