

Update: Geotechnical work on Selkirk Street

Expected start date: As early as March 10, 2025

Expected duration: Up to March 18, 2025

Hours of work: Monday to Friday: 7 a.m. – 11 p.m.

What is happening?

- To enable future construction activities for the Ontario Line project, crews will be conducting geotechnical investigations at the intersection of Pape Ave and Selkirk St.
- Geotechnical investigations consist of drilling boreholes. These investigations are essential to understand soil and rock properties, minimize construction risk and protect nearby buildings and infrastructure.

What to expect

- The westbound lane and four on-street parking spaces on Selkirk St between Pape Ave and Muriel Ave will be closed. Parking spaces will be blocked and no parking signs posted starting Friday evening for the duration of the borehole investigation.

- Bi-directional traffic will be maintained by traffic control personnel. Access to residential and commercial driveways will be maintained.
- Extended work hours of 7 a.m. to 11 p.m. are in effect, with the aim of shortening length of the on-street parking reductions on Selkirk St.
- Drilling and excavation equipment, such as drill rigs and water hauling, hydrovac, concrete, and coring trucks will be on site.
- During the vertical drilling phase, noise, dust, and vibration from construction equipment is expected.
- Signage and safety barriers will be in place to delineate work zones.
- The site will be supervised throughout the work.
- Timing of construction is subject to weather conditions and construction constraints.
- Equipment may be left on site but will be properly secured and stored to ensure safety.
- Dust will be mitigated by misting, sweeping and/or the use of a hydrovac truck.

We will continue to assess impacts and provide neighbourhood notices in advance of any work to keep you up to date and informed. For more information about upcoming work, please see metrolinx.com/ontarioline or sign up for the e-newsletter.
