

Update: Geotechnical work on Strathcona Avenue

Expected start date: As early as March 18, 2025

Expected duration: Up to March 26, 2025

Hours of work: Monday to Friday: 7 a.m. - 11 p.m.

What is happening?

- To enable future construction activities for the Ontario Line project, crews will be conducting geotechnical investigations at the intersection of Pape Ave. and Strathcona Ave.
- Geotechnical investigations consist of drilling boreholes. These investigations are essential to understand soil and rock properties, minimize construction risk and protect nearby buildings and infrastructure.

What to expect

- The north side of Strathcona Ave., just east of the Pape Ave. and Strathcona Ave. intersection, will be closed. Four on-street parking spaces on the south side of Strathcona Ave. will be unavailable for parking, so that traffic flow can be maintained. The parking spaces will be closed prior to work and occupied for the duration of the borehole investigation.
- Traffic will be maintained by traffic control personnel. Access to residential and commercial driveways will be maintained.
- Extended work hours of 7 a.m. to 11 p.m. are in effect, with the aim of shortening the length of on-street parking reductions on Strathcona Ave.
- Drilling and excavation equipment, such as drill rigs and water hauling, hydrovac, concrete, and coring trucks will be on site.
- During the vertical drilling phase, noise, dust, and vibration from construction equipment is expected.
- Signage and safety barriers will be in place to delineate work zones.
- Mobile lights may be used to illuminate the site and ensure safe working conditions.
- The site will be supervised throughout the work.
- TTC bus service will be maintained throughout the work.
- Timing of construction is subject to weather conditions and construction constraints.
- Equipment may be left on site but will be properly secured and stored to ensure safety.
- Dust will be mitigated by misting, sweeping and/or the use of a hydrovac truck.

We will continue to assess impacts and provide neighbourhood notices in advance of any work to keep you up to date and informed. For more information about upcoming work, please see metrolinx.com/ontarioline or sign up for the e-newsletter.
