

# Hydro Cable and Tower Removal

March 22 to Mid-June 2025 (timeline subject to change)

## What is happening?

From March 22 to mid-June 2025 (timeline subject to change), decommissioned cable lines followed by hydro towers will be removed as part of the Union Station Enhancement Project. Hydro utility infrastructure has already been removed and relocated on the south side of the Union Station Rail Corridor east of Union Station, as we continue the GO Expansion Enabling Works leading up to the bridge extensions at Lower Jarvis Street and Lower Sherbourne Street rail bridges. This work will begin in the Don Yard and will continue westward.

## What does this mean for you?

Minimal noise and lighting impacts are expected due to the movement and use of construction machinery and equipment. Lighting will be needed as each tower is removed. Lighting impacts to residents will be limited. Any roadside impacts will be communicated in advance.

## Sequence of Events with anticipated timelines (subject to change)

Activity	Dates	Impacts
Cable Removal	March 22, 2025 – April 12, 2025	<ul style="list-style-type: none"><li>Noise (overnight work), vibration, visual, lighting impacts</li></ul>
