| Rule 842 routing instructions with RTC for multiple movements: | | | | | | |
|--|--|--|--|--|--|--|
| | | | | | | |
| | | | | | | |

Before granting permission, the foreman must ensure the portion of track to be used by the movement is clear and all switches for which the foreman is responsible are lined and locked in normal position, and confirm from the written record and state:

- "I am protecting (number) sub-foremen and they have reported clear;" or
- "No sub-foremen are being protected;" or

Page No _____ of Movement Instructions

• "No sub-foremen are being protected between (location) and (location)."

Following this verification and statement, record the number (#) of sub-foremen being protected in the left hand column, and proceed to voice the instructions.

| ـــــ | column, and proceed to voice the instructions. | | | | | | | | |
|-------|--|---|----------|--------|-----------------------------------|------------------------------|--|--|--|
| # | Movement | Restrictions Proceed (Direction), Work, MPH, etc. | Track(s) | Limits | Acknowledged Foreman / Time | *Clear/ Cancelled Time | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
| | | | | | | | | | |
