

Ontario Line

Lane reductions on Charles Hiscott Bridge - Overlea Boulevard

Expected reduction date: As early as April 30, 2025

Duration: Three (3) days

Hours of work: 9:00am - 3:00pm

What is happening?

Lane Reduction on Charles Hiscott Bridge on Overlea Boulevard

- A detailed visual inspection of the Charles Hiscott Bridge over the Don River on Overlea Boulevard will be carried out on three consecutive days, beginning as early as April 30th, 2025.
- This will require the use of a bridgemaster (an under-bridge inspection vehicle) to inspect the underside of the deck, including the soffit and structural steel members. As a result, single lane closures will be required.
- Single lane closures will occur between 9:00 a.m. and 3:00 p.m. on either Eastbound or Westbound directions, but not concurrently. Traffic control personnel will be present to direct traffic and traffic signage will be posted around the area.
- Local commutes and TTC bus service could be impacted or delayed.

What to Expect

- The single lane closures will occur separately on the Eastbound and Westbound lanes.

- The closures will occur on three consecutive days beginning as early as April 30th between 9:00am and 3:00pm.
- Delays can be expected on Overlea Boulevard. All efforts will be made to mitigate impacts to the local community, motorists, pedestrians, and cyclists. Pedestrian traffic below the bridge will be monitored and controlled when the works are in progress. Traffic control personnel will be present to direct traffic and traffic signage will be posted around the area.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
