

Pape Station Pump Testing

Expected start date: as early as May 12, 2025

Expected duration: Approximately 10 days

Hours of work: Monday – Sunday, 24 hours a day

What is happening?

- Starting as early as May 12, 2025, continual pump testing will take place within the site outlined in the map above for seven straight days.
- In advance of the testing, there will be equipment on-site conducting pre-testing and flow optimization for two days.
- Following the test, there will be one day of demobilization.

What to expect

- Minor noise from the pump can be expected, but no major impacts or disruptions will occur.
- Work will occur seven days a week, including on Sunday.
- Work will be contained within the work site.
- Construction equipment and materials will be secured within the work zones.
- Signage and safety barriers will be in place to delineate work zones.
- There will be no impacts on TTC bus or subway service from this work.

- Work may be delayed due to inclement weather and/or unforeseen circumstances.
- All necessary construction permits have been obtained.
- For more information about upcoming work, please see metrolinx.com/OntarioLineConstruction or sign up for the e-newsletter at metrolinx.com/Subscribe

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 40 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
