

# Tree removals on McCowan Road near Meldazy Drive

**Schedule:** Late May, 2025

**Hours of Work:** Weekdays 9:00 a.m. – 4:00 p.m.

*Note: Dates may be impacted due to weather conditions or unforeseen circumstances.*

## What is Happening

- To accommodate construction of the future Scarborough Subway Extension, trees need to be removed on the east and west sides of McCowan Road, near Meldazy Drive.
- Metrolinx works closely with the City of Toronto and the Toronto and Region Conservation Authority on replanting trees in the area. Learn more at [metrolinx.com/vegetation](https://www.metrolinx.com/vegetation).
- Metrolinx's Vegetation Guideline specifies how many trees need to be planted when any tree is removed, ranging from 1 to 50 new trees based on the size and location of the tree being removed. This guideline is used across our network to ensure more trees are planted than removed as we carry out the largest transit expansion in the history of the region.
- Environmental experts will be on site to ensure tree removal is carried out in accordance with regulatory requirements.
- All required permits have been obtained for the tree removals.

## What to Expect

- Some short-term lane closures will be in place in the immediate location of the work to accommodate tree removal equipment.
- Work will be executed consecutively, so that these lane closures are short in duration (less than three hours each) and localized to each tree. Not all lane closures indicated on the map will be in place simultaneously.
- Access to properties will be maintained throughout the work.
- Work areas will be clearly marked or fenced off as required to ensure public safety
- Residents and businesses near the work site can expect to hear noise caused by trucks and other construction equipment.
- Work may be delayed due to weather conditions or unforeseen circumstances.

## About the Project

- A nearly eight-kilometre subway extension will extend Line 2 farther into Scarborough.
- Three new stops will have connections to up to six other transit options including TTC buses, GO train, GO buses, Line 5 Eglinton, Durham Region Transit, and the proposed Sheppard Extension.
- The extension will accommodate up to 105,000 daily boardings and put 34,000 more jobs within walking distance to rapid transit.
