

Lane diversions to accommodate work on McCowan Road south of Brimorton Drive

Start date/Duration: Late June – Late November 2025

Hours of work: Monday to Saturday, 7:00 a.m. to 7:00 p.m.

Note: Dates may be impacted due to weather conditions or unforeseen circumstances.

What is happening?

- Starting in late June 2025, crews will begin jet grouting work on McCowan Road, south of Brimorton Road, as shown on the map.
- Jet grouting involves injecting and mixing cement-based grout into the ground to create a stronger, more stable soil structure. This process will help prevent ground movement and reduce water infiltration during tunnelling.
- This site will have similar function to the jet grouting site which is operating on McCowan Road just north of Brimorton Drive.

Vehicle diversions

- Road widening will be required on the east side of McCowan Road. This work will take place first, in late June.
- Jet grouting construction at this site will occur in two phases. For the first phase of construction, starting in late June, all traffic will be diverted to the west side of McCowan Road, with one lane of traffic in each direction, as shown on the map.
- The second phase of work will be communicated in a future notice.
- Diversions will be indicated with signage and barriers, and flaggers will be present.

What to expect?

- Expect noise from on-site construction equipment, including jet grout pumps, cement silos, front-end loaders, trucks and other machinery.
- Traffic barrels, fencing and barriers will be in place to separate and secure work zones.
- To ensure pedestrian and driver safety, construction crews will occasionally temporarily close traffic lanes and sidewalks along McCowan Road. Signage will alert drivers and pedestrians to these temporary closures and detours.
- Please take care when travelling near construction areas and watch for additional signs directing pedestrians. Clear and defined walking paths will be maintained to ensure pedestrian safety.

About the project

- A nearly eight-kilometre subway extension will extend Line 2 further into Scarborough.
- Three new stops will have connections to up to six other transit options, including TTC buses, GO train, GO buses, Line 5 Eglinton, Durham Region Transit, and the proposed Sheppard Extension.
- The extension will accommodate up to 105,000 daily boardings and put 34,000 more jobs within walking distance to rapid transit.
