

GO Expansion

Welcome to the

Danforth Siding Track Construction Information Event

Phase 1: July 4 to October 2025

Phase 2: March to April 2026

 **METROLINX**

Danforth Siding Track Construction

July to October 2025

March to April 2026

What's happening?

We will use 108 Wildwood Crescent as a trailer site and the Aldergrove Avenue access point to support construction of 2.2 km of storage track for storing work trains next to the Lakeshore East rail corridor.

Construction will take place during daytime and overnight hours beginning July 4, 2025, for up to 4 months followed by a final phase of work in spring 2026.

After construction is completed, the new storage track will become operational, as needed, for the duration of GO Expansion.

Timeline

Site Surveying & Setup: July 4 to Aug 28

Construction Phase 1: Aug 29 to Oct 23

Construction Phase 2: Spring 2026
