

Site preparation at Islington Avenue

Scheduled start: Tentative July 2025

Expected completion: September 2025

Construction hours: Weekdays - 7:00 a.m. to 7:00 p.m.

Map of work area:

What is happening?

- WestEnd Connectors Construction (WECC), working on behalf of Metrolinx, is starting site setup for the station box construction at Islington Avenue and Eglinton Avenue West.
- A station box is an underground box-like structure that forms the main body of a transit station.
- Work will include:
 - fence installation and placing concrete barriers surrounding the work area
 - mobilizing equipment such as drill rigs, storage and other materials
 - setting up a site office for workers
 - concrete curb and asphalt cutting/removal work

What to expect

- Residents can expect to see construction lighting and hear noise from construction equipment, drills, excavators and dump trucks.
- Measures are being put in place to reduce dust, including the use of water sprays and biodegradable dust suppressants.
- Weekend or overnight work may be required. Residents will be provided with updates as they are made available.
- The information provided is anticipated based on the current construction schedule and is subject to change.
- WECC is currently pursuing permits from the City of Toronto and will begin work once permits are issued.

Traffic and pedestrian impacts

- One westbound lane will be closed on both sides of the intersection.
- Traffic and pedestrian impacts will occur in different stages. Further notification will be provided.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of Line 5 Eglinton will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
