

# Temporary Turning Restrictions at Dundas Street and Hurontario Street for TPSS Construction and Telecom Installations

July-August, 2025

## What You Need to Know

Crews will be constructing the Traction Power Substation at the northeast section and telecom infrastructure at the southeast section of Hurontario Street and Dundas Street in July and August 2025. This will result in temporary lane restrictions and turning restrictions at the intersection. Please look for detour signage for detours.

The driveway next to 14 Dundas Street East will also be closed during this duration. This impact can begin as early as July 8, 2025. Access to all the properties will be maintained.

Information as of: June 2025

The construction and energization of TPSS will continue until early **September 2025**. The delivery of the TPSS box is expected in mid-July. The delivery will occur during night and may generate some noise.

Watch for additional signs directing passengers at bus stops as boarding areas may be relocated. Please visit [www.miway.ca/updates](http://www.miway.ca/updates) for updates on your bus route.

Please note, work may be rescheduled due to weather or unforeseen circumstances. Please see roadway signage for the latest information. If you require the most up-to-date information, please reach out to [peel@metrolinx.com](mailto:peel@metrolinx.com) and our team will provide you with e-updates of this work.

#### **TIMING**

- Telecommunications infrastructure is scheduled to begin at Dundas Street and Hurontario Street in early July and will last until early August, 2025.
- TPSS construction and energization will continue until September 2025.
- Work could be rescheduled and delayed due to weather conditions or unforeseen circumstances.

#### **TRAFFIC DETAILS**

- Left turns for motorists onto Hurontario Street from Dundas Street will not be permitted.
- Right turns for motorists from Hurontario onto Dundas Street will not be permitted on a red traffic signal.
- Traffic delays are expected.
- Watch for slow moving vehicles entering and exiting work areas.
- Remember to reduce your speed when approaching lane reductions.

#### **WHAT TO EXPECT?**

- Every effort will be made to minimize disruptions.
- Residents and businesses near the work site can expect to hear noise and vibration caused by trucks, excavators, loaders, tri-axles, backhoes, and other construction equipment related to this work.

#### **TRANSIT DETAILS**

- Visit [MiWay.ca](http://MiWay.ca) for updates on your bus route.
- Watch for additional signs directing passengers at bus stops as boarding areas may be relocated.

#### **PEDESTRIAN DETAILS**

- Please take care when travelling near construction areas.
- Sidewalk access may be closed for short durations.
- Watch for additional signs directing pedestrians.
- Clear and defined walking paths will be maintained during construction to ensure pedestrian safety.

#### **PROPERTY DETAILS**

- Crews will not require property access for this work.

#### **CONTACT US**

- Metrolinx has a dedicated community relations team in place to work with residents in Peel region through the construction and operation of this transit project.
