Dundas South	<b>Abutment Demolition</b> Planned for Friday, June 13.  <b>Lagging</b> (installing wood boards between steel beams)	<b>Abutment demolition</b>	<b>Preparation for caissons drilling</b> (compaction for the drill rig pad)

## What is happening?

- Bridge reconstruction work is ongoing at Logan Avenue and Dundas Street East.
- Major work such as bridge demolition, caisson drilling, excavation, and concrete works, will continue through Fall 2025.
- Bridge work is expected to take place during the daytime, Monday to Friday between 7 a.m. – 5 p.m.
- **Work will take place on Saturday June 14 on the west side of the Logan bridge.**
- Periodic daytime weekend work will be required at the bridges – advance notice will be provided for weekend work.
- No traffic changes are expected as a result of this work.
- Temporary sidewalks closures on Logan Avenue and Dundas Street East will be implemented during bridge demolitions to ensure pedestrians safety. One sidewalk will remain open at all times.

## What to expect

- Concrete breaking, caisson drilling, excavation and concrete pours will take place at the Logan and Dundas bridges
- Construction equipment including drill rigs, excavators, loaders, compactors, concrete trucks, and hammers will be used to complete this work.
- Noise and vibration can be expected during these activities
- Noise mitigation measures, including temporary noise barriers and noise reducing equipment, will be implemented as required, and crews will do their best to minimize noise from this work.
- Noise and vibration monitoring instruments are in place to ensure acceptable levels are maintained.
- Dust mitigation such as filter cloth, water misting, and street sweeping will be in place.
- Solid hoarding is currently installed at Dundas and Logan bridges to minimize noise and dust.
- Advance wayfinding signage will be installed to direct motorists and pedestrians.
- Work may be delayed due to weather conditions or unforeseen circumstances.

## About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
