

ADDITIONAL OVERNIGHT TRAIN STORAGE ACTIVITY - DON YARD

September 19-22

Background

Metrolinx has been informed by the Ministry of Transportation of upcoming overnight rehabilitation work on bridges at various locations that intersect with our GO rail corridor network. To ensure the highest level of safety is maintained, the Union Station Rail Corridor will experience more train movement and storage at two of our rail yard facilities on select weekends over the next several months.

What's happening?

For the weekend of September 20-22, bridge work at Brock Road in Pickering will need the increased capacity of Don Yard to accommodate additional GO trains that would have been sitting at our Whitby Rail Facility.

As such, there will be additional train movement to and from this location outside of our general operating hours. Please be assured that work crews are appreciative of rail adjacent communities and will keep associated movement and storage impacts to a minimum when and wherever possible.

Questions If you have any questions or concerns about this work, please contact us any time at TorontoEast@Metrolinx.com or (416) 202-3900. For more information on GO Expansion in your community, visit our website at [Metrolinx.com/GoExpansion](https://www.Metrolinx.com/GoExpansion).
