

Track Maintenance Work

September 20-21, 2025

Image depicting the location of the temporary road closure and nighttime construction.

At Metrolinx, safety is central to everything we do which is why we continue to introduce safety improvements as we build more rail infrastructure and increase capacity for service across the network. Our surfacing work ensures proper rail alignment, eliminating track geometry defects, and enhancing customer comfort.

WHAT WORK IS TAKING PLACE?

Beginning at 5am on Saturday, September 20 until 11pm on Sunday, September 21, Metrolinx construction crews will be performing track undercutting work during both daytime and nighttime hours at the track level. This work includes the use of heavy machinery to remove and replace ballast and rail ties.

WHAT TO EXPECT

- Daytime crews will be performing work involving the use of heavy machinery such as a hydro vac that generates noise.
- Nighttime and overnight work will also include the use of large equipment that will generate noise from approximately 8pm until 9am.
- Please note construction schedules could change with short notice due to weather or unforeseen circumstances. The Community Engagement team will make every effort to provide advance warning of any changes. Construction notices are posted on our website: www.metrolinx.com/kitchener

QUESTIONS

We understand that while necessary, this work is potentially disruptive to nearby residents. We appreciate your patience and understanding. Our Community Engagement team is available to answer your questions by email, Monday - Friday, 8:30 a.m. – 4:30 p.m. at GuelphWellington@metrolinx.com.
