

Extended hour concrete pours at Dundas and Logan bridges

Start date and duration: Late September 2025 until December 2025

Hours of work: Weekdays between 4 a.m. and 11 p.m. with occasional weekend work

What is happening?

- From late September to December 2025, major concrete pours will take place to build the new bridges at Dundas St. E. and Logan Ave.
- Large volume pours must occur early in the morning to allow proper time for the concrete to cure and avoid cracking. Work may begin as early as 4 a.m. and may continue until 11 p.m.
- Bridge footings will be poured first, followed by the abutments and wing walls.
- The first major pour will take place as early as **Friday, September 26, on the west side of the Logan bridge**. The pour will begin at approximately 7 a.m. and approximately eight (8) hours to complete.

What to expect

- Trucks will enter and exit the site via Dundas St. E. and Logan Ave.
- Between five and six concrete trucks can be expected per hour.
- Concrete trucks will queue within the work site. No impacts to traffic or sidewalks are expected.
- Noise from construction equipment including concrete trucks and pumps can be expected.
- Noise mitigation measures, including temporary noise barriers and noise reducing equipment, will be used as required.
- Clear signage will be in place to direct vehicles, pedestrians and cyclists.
- Traffic barrels, fencing and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Work may be delayed due to weather conditions or unforeseen circumstances.
