

Watermain installation at Dufferin Street

Expected start date: As early as November 2025

Expected completion: End of February 2026

Hours of work: 7 a.m. to 5:30 p.m., Weekdays

Map of work area:

What is happening

- To support ongoing construction of the new Ontario Line subway at Exhibition Station, crews must install a watermain and make the connection within the Ontario Line work zone.
- Water shutdowns will be required, which will impact neighbouring buildings. Crews will contact impacted buildings directly regarding scheduled watermain shutoffs as needed.
- To complete this work, sidewalk closure and a partial lane closure will be required on Dufferin Street.
- Work will take place intermittently from 7 a.m. to 5:30 p.m. weekdays from November 2025 to the end of February 2026.

What to expect

- Work will take place in front of the Ontario Line worksite as indicated in the map above.
- Northbound curb lane on Dufferin Street will be narrowed near the construction site, both northbound lanes will remain open. The lanes will be delineated by barriers to maintain safety.
- Northbound sidewalk on Dufferin Street will be closed near the work zone and will reopen once work is completed.
- Area residents and businesses can expect to hear noise from work equipment, specifically hydrovac trucks as required to assess underground utilities and ground conditions. This work requires the use of this machinery for the safety of workers and infrastructure in the area.
- Crews will take measures to minimize noise impacts wherever possible.
- Work may be postponed, extended or rescheduled due to unforeseen circumstances.
