

Weekend work at Royal York Road and Eglinton Avenue West

Scheduled start and completion: Saturday, October 18, 2025

Construction hours: 9:00 a.m. to 7:00 p.m.

Map of work area:

What is happening?

- Crews working on behalf of Metrolinx will be installing a sound wall on Saturday, October 18, northwest of Royal York Road and Eglinton Avenue West.
- This work is part of the station box construction on Eglinton Avenue West. A station box is an underground box-like structure that forms the main body of a transit station.
- Sound walls are post and panel structures that are strategically built to dampen and reduce noise from construction. The sound walls will be in place for the duration of construction.
- The sound walls will be approximately five metres tall and are made from pre-cast concrete for sound dampening.

What to expect

- Residents can expect to see construction lighting and hear noise from construction equipment, drills, excavators, and dump trucks.
- Measures are being put in place to reduce dust, including the use of water sprayers and biodegradable dust suppressants.
- The information provided is anticipated based on the current construction schedule and is subject to change.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of Line 5 Eglinton will run 9.2 kilometres from the Mount Dennis station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
