

Overnight utility monitor maintenance on Danforth Avenue

Dates and duration: Monday, October 20, 2025 overnight

Hours of work: 10:00 p.m. to 6:00 a.m.

What is Happening?

- On Monday, October 20, 2025, maintenance of utility monitoring instruments will be done around the following location in the Pape-Danforth area:
 - Danforth Avenue westbound road lane west of the site.
- This monitor will be automated to avoid manual readings. The monitoring instruments provide alerts in the event of excessive vibration or settlement so adjustments can be made to prevent any issues.
- Works will take place overnight, between 10:00 p.m. to 6 a.m. to minimize traffic impacts.
- Brief traffic closures may take place to facilitate installation.

What to Expect

- Westbound lane will be narrowed, impacting traffic intermittently. A Paid Duty Officer will be on site to assist with traffic.
- Construction equipment will access the site from Danforth Avenue.
- Noise from construction equipment can be expected.
- Construction equipment and materials will be secured within the work zones.
- Signage and safety barriers will be in place to delineate work zones.
- This work may be delayed due to inclement weather and/or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar and bus lines.
- Approximately 40 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
