

Bloor-Lansdowne GO: Extended Excavation and Shoring Works

Monday, November 3 – Friday, December 19, 2025*

**Date may be rescheduled due to inclement weather or unforeseen circumstances.*

What Is Happening

Construction is now underway at the site of the future Bloor-Lansdowne GO Station. As part of this work, Metrolinx began **excavation and shoring works** in June 2025 to prepare the site for upcoming station building construction activities. Excavation and shoring are a critical step in building infrastructure and readying the site for the construction of station buildings. The shoring works, as well as additional excavation works, will continue into the end of the year due to unforeseen schedule changes.

Work will take place at night between 9:00 p.m. and 6:00 a.m., Monday to Friday, to ensure the safety of workers who require access to the rail corridor. We understand that overnight work may be disruptive. Metrolinx will make every effort to minimize disruption where possible.

WHAT TO EXPECT

- Excavations will occur within the work zone (see Figure 1). These excavations are in preparation for the start of construction on future station buildings.
- Temporary structural supports will be installed to stabilize the ground and surrounding infrastructure for future construction activities. This requires caisson drilling within the designated work zone (see Figure 1).
- Equipment to be used includes a drill rig, concrete trucks, an excavator, front-end loader, and dump trucks.
- Noise, dust and vibration: While drilling works will result in periodic noise, dust, and vibration, these impacts will be actively monitored, and every effort will be made to mitigate exposure to nearby residents. No equipment will be left to idle.
- Light: All lights will be pointed towards the track.

HOURS OF WORK

- Work will occur Monday to Friday overnight between the hours of 9:00 p.m. and 6:00 a.m.

LOCATION OF WORK

- Work will occur south of Bloor Street West.
- Work will occur within the rail corridor.

PEDESTRIAN DETAILS

- At this time, no impacts on sidewalks or pedestrian pathways are expected.

TRAFFIC DETAILS

- The work site will not present major traffic disruptions.

TRANSIT INFORMATION

- Nearby GO Transit and TTC service will not be impacted.

COMMUNITY ENGAGEMENT

- Metrolinx has a dedicated community engagement team in place that works with residents and businesses in the Toronto West area.
- If you have any questions, please contact us using the information provided below.
