

Drainage system test at 2 Paisley Avenue

Dates and hours of work: Wednesday, November 5 and Thursday, November 6, 2025, between 8 a.m. and 5 p.m.

What is happening?

- On Wednesday, November 5, and Thursday, November 6, 2025, crews will stage outside of 2 Paisley Avenue to test the Dundas bridge drainage system and retaining wall structures.
- To conduct this test, a hydrovac truck will be staged in the curb lane in front of 2 Paisley Avenue.
- The curb lane and sidewalk in front of 2 Paisley Avenue will be closed periodically during this work.
- Traffic control personnel will be on site to safely manage vehicle and pedestrian access.

What to expect

- Noise from the hydrovac truck is expected.
- Mitigation measures will be implemented as required.
- Noise and vibration monitoring will remain in place to ensure acceptable levels are maintained.
- Vehicles, equipment and crews will access the site via Paisley Avenue.
- Traffic barrels, fencing and barriers will be in place to separate and secure work zones.
- Construction equipment and materials will be properly secured within the work zones.
- Traffic control personnel will be present during the work activity.
- Work may be delayed due to weather conditions or unforeseen circumstances.
