

UPDATED: Exhibition north station entrance concrete pour and delivery

UPDATED: Expected start date: As early as Nov. 15, 2025

Expected duration: up to one day

Hours of work: 5:00 a.m. to 11:00 p.m.

Map of work area:

What is happening?

Construction remains ongoing to deliver the Ontario Line at Exhibition. Through fall and winter 2025, crews will continue to construct various projects at the site, including station platforms, TBM preparation activities, the Ontario Line portal and a traction power substation to the area.

The future north station entrance continues to be constructed at the west end of the Ontario Line work site. Foundation and structural support, concrete works, waterproofing and rebar installations are required for this phase of work. To complete the concrete foundation, crews, concrete trucks and pumps are required to be on site as early as 5:00 a.m.

What to expect

- Neighbours will hear and see several types of construction equipment in use during this phase, including concrete trucks and concrete pumps, to name a few. Other equipment will be in use as required and may be added or removed from the site throughout the duration of work.
- Mitigations are in place to limit the impact of debris and dirt to city streets.
- Crews may arrive on site earlier than 5:00 a.m. to prepare machinery and equipment.
- Work may be postponed or rescheduled due to weather or unforeseen circumstances.
- For more information about upcoming station work, please visit metrolinx.com/ontarioline or sign up for our e-newsletter.

About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.

Information as of: November 4, 2025

- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer car trips on the road each day.
