

Driveway construction at 10 Overlea Boulevard

Start Date: Monday, December 8, 2025

Expected Duration: Until early January

Hours of Work: Monday to Friday 7:00 a.m. to 7:00 p.m.

What is happening?

- Starting as early as Monday, December 8, 2025, a temporary driveway will be built on the north side of Overlea Boulevard adjacent to Leaside Park Drive.
- This driveway will support construction of the Operations, Maintenance and Storage Facility and the elevated guideway along Overlea Boulevard. It will also provide emergency services access to construction sites and serve as a secondary access point for the Islamic Society of Toronto during Ontario Line construction.
- Driveway construction will take place during the daytime from Monday to Saturday between 7 a.m. – 7 p.m.
- Construction activities will include excavation, grading, and paving.
- This temporary private driveway will take approximately four weeks to construct.

What to expect

- Please plan for extra time to travel through the Overlea Boulevard and Leaside Park Drive area, as there will be localized closures of the curb lane on Overlea Boulevard closest to the driveway.
- Periodic disruption to pedestrian traffic at the Leaside Park Drive and Overlea Blvd. intersection are expected. The north sidewalk at the intersection will be closed, with pedestrian traffic redirected to the south sidewalk.
- Compaction will be required to ensure the driveway is stable and can support the weight of vehicles. Residents in nearby properties may feel vibrations during compaction.
- Construction activities will also include excavation, concrete breaking, grading, and paving.
- TTC bus service will not be impacted by this work.
- Traffic control personnel will be present to assist vehicles and pedestrians where necessary.
- Construction equipment and materials will be properly secured within the work zones.
- This work may be delayed due to weather conditions and/or unforeseen circumstances.

About the Ontario Line

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 connections to other transit, including GO train, subway, LRT, streetcar, and bus lines.
- Less than 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
