

Lane closures and road diversions on Nugget Avenue near McCowan Road

Schedule: Early January to late spring 2026

Hours of Work: 7:00 a.m. to 5:00 p.m., weekdays

Note: Dates may be impacted due to weather conditions or unforeseen circumstances.

What is Happening

- As part of Scarborough Subway Extension construction, crews need to relocate a storm sewer, sanitary lines, and the watermain along Nugget Avenue near McCowan Road.
- This work will require temporary closure and diversion of some traffic lanes on Nugget Avenue.

What to Expect

- From early January to late spring 2026, work on Nugget Avenue will be executed in three stages.
 - **Stage 1:** Approximately 25 metres from the Nugget Avenue and McCowan Road intersection, Nugget Avenue eastbound and westbound traffic will be reduced to one lane in each direction and will be **diverted to the north side of the roadway**.
 - **Stage 2:** Approximately 25 metres from the Nugget Avenue and McCowan Road intersection, Nugget Avenue eastbound and westbound traffic will be reduced to one lane in each direction and will be **diverted to the south side of the roadway**.
 - **Stage 3:** Watermain relocation will take place on the north shoulder of Nugget Avenue at the intersection with McCowan Road. **The roadway will be shifted approximately 3.8 metres to the south**, but all lanes will be maintained – two eastbound lanes and two westbound lanes, including a designated left-turn lane.
- For this work, crews will be using excavators, concrete saw cutters, and hydro vac trucks to remove asphalt and gravel and dig a trench to perform storm sewer, sanitary line, and watermain relocations. Paving and line painting equipment will be used to restore the road once the work is completed.
- Residents and businesses near the work site can expect to hear noise caused by trucks and other construction equipment.
- Flaggers and Paid Duty Officers will be utilized as needed to ensure safe vehicle passing.
- Temporary pedestrian walkways will be installed, adjacent to work zones.
- Access to area businesses will be uninterrupted.
- Work areas will be clearly delineated using fencing and concrete barriers to ensure public and worker safety.

About the Project

- A nearly eight-kilometre subway extension will extend Line 2 further into Scarborough.
- Three new stops will have connections to up to six other transit options, including TTC buses, GO train, GO buses, Line 5 Eglinton, Durham Region Transit, and the proposed Sheppard Extension.
- The extension will accommodate up to 105,000 daily boardings and put 34,000 more jobs within walking distance to rapid transit.
