## Project Overview

The Bowmanville Extension will extend Lakeshore East GO rail service nearly 20-kilometres east of the Durham College Oshawa GO Station to Bowmanville, serving the Region of Durham. Expanded rail service will provide Durham Region with direct connections to the larger GO Transit network, helping to reduce congestion in the region while better connecting customers to education, family, entertainment, and jobs.

## What is happening?

Metrolinx has begun construction for the Bowmanville Extension. As part of preparatory works, Metrolinx will be conducting tree and vegetation removals starting on Wednesday, March 11, 2026.

These removals are necessary to facilitate future construction activities at the site, including the installation of a new watermain beneath the rail corridor.

## WHAT TO EXPECT

- Activities consist of the cutting and removal of trees, brush, and other vegetation as applicable.
- Crews will also dispose of felled trees, previously uprooted trees or stumps, and surface debris.
- Noise & Vibration: Residents and businesses near the work zone may perceive noise and vibration caused by construction vehicles and heavy equipment. Work will be conducted as efficiently as possible to minimize disturbances in the area. Monitors may be used as needed to ensure levels stay within allowable limits.
- Lights: Lights will be directed into the work site to minimize light pollution into nearby buildings and businesses.

## WORK HOURS

- Work will occur between Monday to Friday from 7:00 a.m. to 5:00 p.m.

## LOCATION

- Work will occur within the rail corridor north of Bloor Street East and West of Grandview Street South.

## TRAFFIC DETAILS:

- There are no anticipated traffic impacts.

## TRANSIT INFORMATION

- There are no impacts to GO or Durham Region Transit service.

## PEDESTRIAN DETAILS

- Pedestrian sidewalk access will not be affected.

## COMMUNITY ENGAGEMENT

- Metrolinx has dedicated community engagement teams available to connect with residents and businesses.
