

# GO Expansion Early Works

## Ongoing Construction

This map is for illustrative purposes only. Work areas are approximate.

### What is happening?

Construction activities within the Union Station Rail Corridor (USRC) are being completed in phases to deliver the required infrastructure needed to bring two-way, all-day rail service every 15 minutes or better along core segments of the GO network as part of the greater GO expansion mandate.

As part of the Union Station Enhancement Project, we're completing track infrastructure upgrades within the USRC to increase capacity, bringing you more frequent service as part of GO Expansion enabling works.

GO Expansion will offer more service with faster trains, more stations and seamless connections to a regional rapid transit network.

There are construction activities occurring overnight in the Union Station Rail Corridor between York Street and Yonge Street as part of the ongoing work in the Union Station Rail Corridor. The work will include the overnight use of a hydro excavation (hydrovac) truck. The work hours will be 9:00pm to 5:00am. This work must be completed overnight to keep our crews safe while working near the active rail tracks.

## What does this mean for you?

The construction may include impacts such as lighting, vibration, and noise from the hydrovac truck. Please see below for more details.

Location	Activity	Dates	Impacts
Union Station Rail Corridor	GO Expansion Early Works	Ongoing	Noise (overnight work), dust, vibration, visual impacts

## Questions

If you have any questions or concerns about this work, please contact us any time at [TorontoEast@metrolinx.com](mailto:TorontoEast@metrolinx.com) or (416) 202-3900.
