

Temporary Lane Closure: University Avenue Northbound Impacts - Night Work

April 6 - April 8, 2026

Figure 1: Work Area impacting University Avenue, north of Front Street West

Project Overview

Metrolinx is upgrading Union Station to support the creation of a network that has the capacity to deliver two-way, all-day service every 15 minutes or better along core segments of the GO rail network. This includes improved GO train platforms with canopies, more stair and elevator access platforms, and a continuous concourse between Bay and York Streets.

What Is Happening

From April 6th to April 8th, 2026, sewer investigations will be underway in the northbound lane of University Avenue north of Front Street West. These investigations include using vacuum excavation to expose the existing conditions of underground utilities. This requires the sidewalk and road lanes to be occupied by construction crews and equipment to facilitate this work. As a result, northbound vehicular traffic will be restricted to the center lanes through the duration of this work, scheduled during the hours of 9:00p.m to 5:00a.m from April 6 to April 8, 2026.

WHAT TO EXPECT

- Overnight temporary lanes closure of University Avenue northbound lane north of Front Street West, restricted to one northbound lane
- Visible construction signage, equipment and vehicles including a hydrovac excavation truck.
- Hydrovac usage may be noticeable to adjacent properties.

HOURS OF WORK

9:00PM - 5:00AM April 6th - April 8th, 2026

LOCATION OF WORK

- University Avenue and York Street north of Front Street West

PEDESTRIAN DETAILS

- Overnight temporary sidewalk closures University Avenue with pedestrian detours in place

TRAFFIC DETAILS

- Overnight/Off peak temporary closure of University Avenue northbound lane
