

UPDATE: Occasional Sunday work at Gerrard Street East and Carlaw Avenue

Start dates and duration: As early as April 19, 2026 and will continue for two months

Hours of work: Occasional Sundays, between 7 a.m. and 7 p.m.

What is happening?

- The first phase of piling work is nearing completion at the northeast corner of Gerrard Street East and Carlaw Avenue.
- To maintain the project schedule, occasional Sunday work will be conducted as required as early as **April 19, 2026**.
- These piles provide essential support for the rail corridor, enabling excavation for the future Gerrard Station.

What to expect

- Construction equipment will enter and exit the work site using the access road off Carlaw Avenue, between Gerrard Street East and Simpson Avenue. The access road will be used to bring materials and equipment into the site.
- Where space allows, solid noise barriers (wood hoarding) will be installed around the perimeter of the site.
- Construction activities will include drilling, hauling soil, steel and rebar installations and concrete pouring.
- Secant piling is the process of overlapping piles with one another to form a solid concrete wall. This wall will be built to support the rail corridor, enabling excavation for the Gerrard Station
- Noise and vibration from construction equipment including vibratory rollers, drill rigs, concrete trucks and other machinery can be expected.
- Noise and vibration monitors are in place to ensure acceptable levels are maintained.
- Construction equipment and materials will be properly secured within the work zones.
- Residents will notice construction crews, equipment, installation of safety hoarding and material deliveries near the construction areas shown on the image above.
- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
