

Piling works at Gerrard Street East and Carlaw Avenue

Start dates and duration: As early as **May 4, 2026** for six months

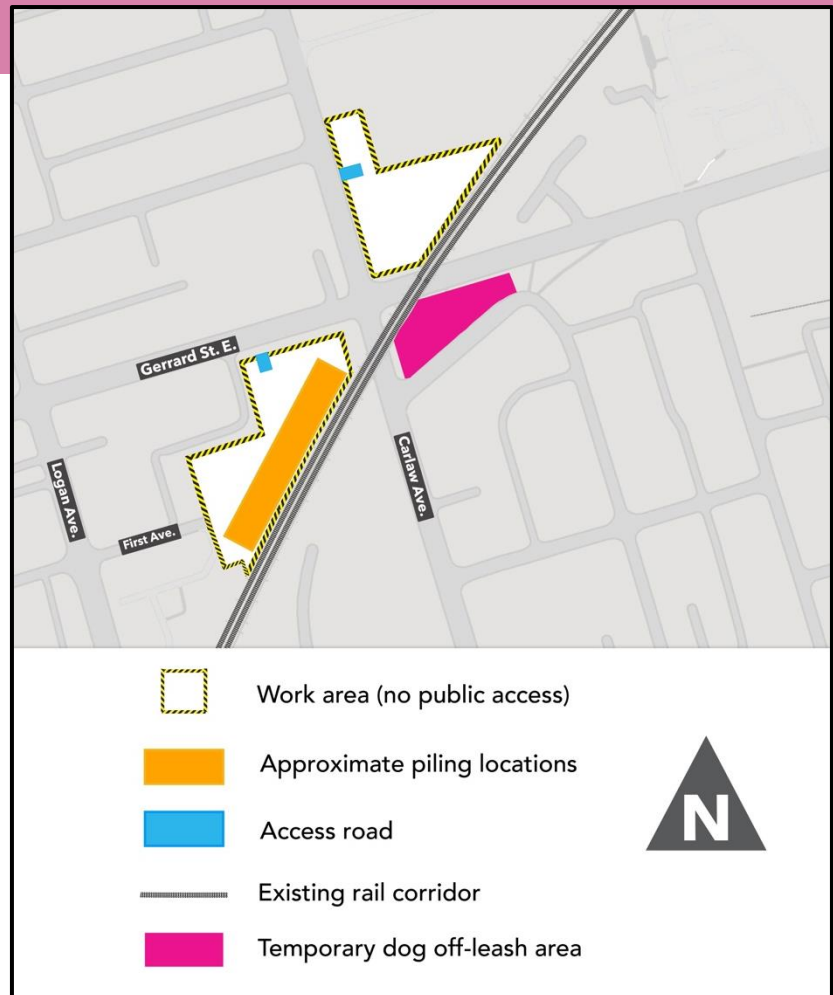

Hours of work: Monday to Friday, between 7 a.m. and 11 p.m., with some weekend construction between 7 a.m. and 7 p.m.

What is happening?

- Piling work will begin next to the rail corridor at the southwest corner of Gerrard Street East and Carlaw Avenue.
- These piles will provide essential support for the rail corridor, enabling excavation for the future Gerrard Station.
- Piling will begin as early as **May 4, 2026** and continue for six months.
- **Work will primarily take place on weekdays during the daytime. Occasional nighttime work and weekend work will be performed as required.**
- There will be no impact to traffic or sidewalks.

What to expect

- A drill rig will be used to install the piles.
- The drill rig will dig circular holes into the ground. Steel rebar cages will be inserted into the holes using a crane, before being filled with concrete to form piles.
- Secant piling is the process of overlapping piles with one another to form a solid concrete wall. This wall will be built to support the rail corridor, enabling excavation for Gerrard Station.
- Noise and vibration from construction equipment including vibratory rollers, drill rigs, concrete trucks and other machinery can be expected.

- Work may be delayed due to weather conditions or unforeseen circumstances.

About the project

- 15.6-kilometre subway line that will make it faster and easier to travel within Toronto and beyond.
- 15 stops and more than 40 transit connections, including GO, TTC, and more.
- Approximately 30 minutes from one end of the line to the other.
- 28,000 fewer cars on the road each day.
