

Etobicoke North GO Station Parking Lot Improvements

Scheduled Start Date: September 28th 2026

Scheduled End Date: December 2026

Working Hours: 7:00 AM to 7:00 PM

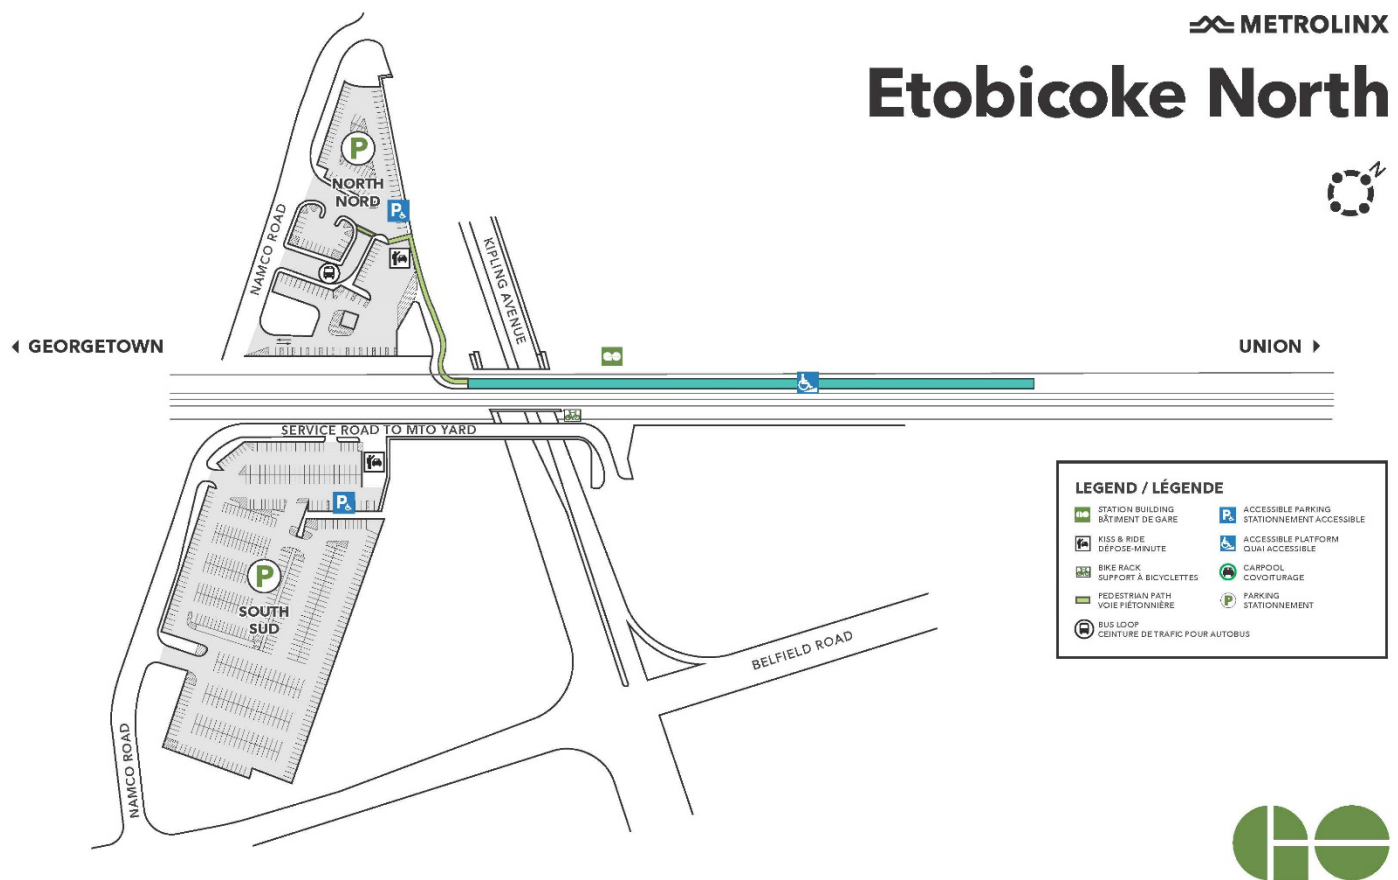

Figure 1: Map showing the extent of the work area

What is Happening?

Metrolinx will be rehabilitating the North and South parking lots at Etobicoke North GO Station. Work includes asphalt replacement, curb and sidewalk repairs, drainage improvements, new pavement markings and signage, accessibility upgrades, and other associated restoration works. Construction will be completed in stages to maintain access to the station while improving the overall parking facilities.

What to Expect?

- Temporary parking restrictions and reduced parking availability.
- Changes to parking lot traffic patterns and pedestrian routes.
- Construction fencing and temporary wayfinding signage.
- Increased construction activity, noise, dust, and vibration.
- Continued access to the station and GO Transit services.

Traffic Changes

Customers should expect changes to parking lot traffic patterns, temporary lane restrictions, and modified parking layouts as work progresses through each construction stage. Please follow all posted signage and directions from on-site personnel.

Pedestrian Access

- Safe pedestrian routes between parking areas and the station will be maintained throughout construction. Temporary wayfinding signage will be installed to guide customers around active work zones.

Noise & Vibration

- Station customers may experience occasional noise, vibration, dust, and increased construction activity during working hours. Every effort will be made to minimize impacts wherever possible.

Transit Service

- There are no anticipated impacts to GO Train service as a result of this work. Station access will remain available throughout construction.

About the Project

- This work forms part of Metrolinx's ongoing state-of-good repair program and will extend the life of the station parking facilities while improving accessibility, safety, drainage performance, and customer experience at Etobicoke North GO Station.
