

Temporary sidewalk closure southwest of Kipling Avenue and Eglinton Avenue West; Multi-Use Path remains open

Scheduled start: Monday, September 21, 2026

Expected completion: Friday, November 20, 2026

Construction hours: Weekdays and weekends - 7:00 a.m. to 7:00 p.m. (Overnight work may be required)

Map of work area:

What is happening?

- Crews working on behalf of Metrolinx will temporarily close a portion of the southwest sidewalk on Eglinton Avenue West to construct a new concrete curb and sidewalk.
- This work is part of the ongoing road realignment on Eglinton Avenue West and is required to build the underground station box.
- A station box is an underground box-like structure that forms the main body of a transit station.
- The realignment will remain in place through construction of the station.

What to expect

- Residents can expect to see and hear noise from large machinery, such as drills, excavators, dump trucks and equipment. Construction lighting may be visible on the work site.
- Measures are being put in place to reduce dust, including the use of water sprayers and biodegradable dust suppressants.
- Sound walls have been installed around the work sites to dampen and reduce noise from construction.
- Overnight work may be required. Residents will be provided with updates as they are made available.
- The information provided is anticipated based on the current construction schedule and is subject to change.
- Work is subject to permit approval from the City of Toronto.

Traffic and pedestrian impacts

- A portion of the sidewalk on the south side of Eglinton Avenue West will be temporarily closed while the new curb and sidewalk are constructed.
- Pedestrians will be detoured around the closure using the open multi-use pathway.
- Pedestrians and cyclists must follow posted signage and use caution when travelling through the area.
- There will be additional traffic stages related to this work in the future. Further notification will be provided.

About the project

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of Line 5 Eglinton will run 9.2 kilometres from Mount Dennis Station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
