

Road realignment update: Traffic shifts south on Eglinton Avenue West near Kipling Avenue

Updated scheduled start: Monday, November 23, 2026

Expected completion: Sunday, January 31, 2027

Construction hours: Weekdays and weekends - 7:00 a.m. to 7:00 p.m. Overnight work is required.

Map of work area:

What is happening?

- Crews working on behalf of Metrolinx have completed a major portion of the road realignment work on Eglinton Avenue West near Kipling Avenue to build the underground station box.
- Traffic will be shifted further south onto the newly constructed lanes on Eglinton Avenue West while crews continue the remaining road realignment and station box construction activities.
- As part of preparatory works, crews will complete overnight paving and road line painting on Eglinton Avenue West near Kipling Avenue. This work is expected to take approximately three to five days and is required before traffic can be redirected onto the newly constructed lanes.
- A station box is an underground box-like structure that forms the main body of a transit station.
- The realignment will remain in place through construction of the station.

What to expect

- Residents can expect to see and hear noise from large machinery, such as drills, excavators, dump trucks and equipment. Construction lighting may be visible on the work site.
- During the paving and road line painting work, residents can expect to see crews and construction vehicles working on Eglinton Avenue West overnight. Overnight work is required to reopen lanes and minimize traffic impacts.
- Measures are being put in place to reduce dust, including the use of water sprayers and biodegradable dust suppressants.
- Sound walls, post and panel structures, have been installed around the work sites to dampen and reduce noise from construction.
- The information provided is anticipated based on the current construction schedule and is subject to change.
- Work is subject to permit approval from the City of Toronto.

Traffic and pedestrian impacts

- One westbound and eastbound lane will be closed during this phase of construction.
- The multi-use path and south sidewalk will be maintained at all times during this phase of construction.
- Northbound bus stop #4304 on the southeast corner of the Eglinton Avenue West and Kipling Avenue intersection will be temporarily relocated 10 metres further south.
- Southbound bus stop #4305 on the northwest corner of the Eglinton Avenue West and Kipling Avenue intersection will be temporarily relocated 80 metres south on the farside of the intersection.
- Westbound bus stop #2371 on the northeast corner of the Eglinton Avenue West and Kipling Avenue intersection will temporarily operate from a wooden platform.
- Eastbound bus stop #2370 on the southwest of the Eglinton Avenue West and Kipling Avenue intersection will temporarily operate from a wooden platform.
- There will be additional traffic stages related to this work in the future. Further notification will be provided.

- The Eglinton Crosstown West Extension will bring even more rapid transit to Etobicoke and Mississauga, making it easier for people to get where they need to be each day.
- The extension of Line 5 Eglinton will run 9.2 kilometres from Mount Dennis Station to Renforth Drive and will operate mainly underground. Once complete, it will create a continuous rapid transit line that stretches from Scarborough, through midtown Toronto, and into Mississauga.
