

Installation of monitoring devices near Moss Park Station

Expected start date: Oct. 13, 2026
Expected end date: Mid-November 2026
Hours of work: 9 a.m. to 5 p.m.

What is happening?

- Crews are installing monitors and investigating underground utilities around the **Moss Park** Ontario Line construction sites, as indicated in the area shown in yellow on the map below. This work is required to monitor ground conditions for future Ontario Line tunnelling.
- Monitors will be installed underground and are expected to stay in place until the project's completion, with crews occasionally revisiting for testing and inspection.
- Temporary lane and sidewalk closures are required to carry out this work safely.

What to expect

- The work is scheduled to begin as early as **Friday, Oct. 13, 2026**, and is expected to be completed **by Mid-November 2026**.
- Residents and businesses may hear noise from hydrovac trucks or drills during utility and ground assessments. Crews will minimize noise impacts where possible.
- All work closures are temporary, occurring only while crews are working.
- Once the monitoring device installation is complete, the area will reopen to the public.
- Traffic control personnel will be present on-site to safely direct traffic around the work zone.

Map of work near Moss Park station

- Traffic will be maintained in all directions.
 - Signage will be posted advising of closures and restrictions.
 - Access to adjacent properties will always be maintained or will be accommodated.
 - Transit services will be maintained.
 - After each work shift, each area will be securely covered and marked for safety until workers return or the work is complete.
 - Work may be postponed or rescheduled due to unforeseen circumstances.
 - Crews will return to the work zones in the future to perform maintenance on devices.
