

# Sewer Work on Front Street West and University Avenue

**Scheduled Start Date:** August 04, 2026

**Scheduled End Date:** December 01, 2026

**Working Hours:** Monday to Friday, 7:00 a.m. to 7:00 p.m.

## Map of work areas on University Avenue and Front Street West

### What Is Happening?

Sewer work will be underway in the northbound lanes of University Avenue north of Front Street West and eastbound lanes of Front Street West. The work includes installing two new storm mains and a double catch basin. Aging piping infrastructure will also be removed during this work.

The road and sidewalk closures will be sequential starting on University Avenue and then shifting to Front Street West to mitigate traffic and pedestrian impacts.

## What to Expect?

- Trucks and construction equipment may generate dust during construction.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.

## Traffic Changes

- University Avenue and Front Street West will be reduced for the duration of the work. Signage will redirect traffic around the work zones.
- Two-way directional traffic will be maintained during the work.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.
- All businesses in the area will remain open during the work. Please follow signage for access.

## Pedestrian Access

- Temporary sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.

## Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.

## Transit Service

- There is no anticipated impact to transit services.
- 

## About the Project

Union Station is becoming more accessible and easier to navigate with wider platforms and less crowding. As the gateway to the region, the station is undergoing much-needed modernization while preserving heritage features to meet transit needs now, and in the future. All this to expand capacity and run more trains through the largest transit hub in the GO rail system and bring two-way, all-day service every 15 minutes or better along core segments of the network.
