

# Temporary Road Closure on St. Clair Avenue West

**Scheduled Start Date:** June 04, 2026

**Scheduled End Date:** June 06, 2026

**Working Hours:** 6:00 p.m. to 6:00 a.m.

**Figure 1: Map depicting road closure and associated detour route. Metrolinx image.**

## What Is Happening?

As part of works to support the construction of the future St. Clair-Old Weston Station, Metrolinx crews will be removing steel pipes from the St. Clair Rail Bridge on the nights of Thursday, June 4 and Friday, June 5. This work is necessary to facilitate a future demolition of the bridge. To complete the work, a full road closure of St. Clair Avenue West between Old Weston Road and Keele Street is needed. This temporary road closure will occur for the duration of the work, from 6:00 p.m. to 6:00 a.m., on both nights. Traffic management will be in place and a detour route will be implemented.

## What to Expect?

- Construction lighting may be visible from the work site.
- Crews will take precautions to monitor and reduce dust.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.
- Trucks will stage inside the work site and will not stage outside of the site boundaries

## Traffic Changes

- St. Clair Avenue West between Old Weston Road and Keele Street will be closed for the duration of the work. Signage will redirect traffic around the work zones.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.

## Pedestrian Access

- Temporary sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.

## Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- To minimize noise impacts on the community, noise monitoring equipment will be installed prior to construction. These devices will help to detect exceedances early to proactively conduct corrective actions as needed while crews work.

## Transit Service

- Please visit the City of Toronto for more information about changes to your travel.
- 

## About the Project

St. Clair-Old Weston Station will be located on Union Street, north of St. Clair Avenue West serviced by the Union-Pearson Express.

It will feature two new station buildings, bike parking, bus loop for transit connections, two pedestrian tunnels connecting the east and west platforms, and access to Gunns Road and St. Clair Ave West.

The station will be near the Stockyards District, between Bloor GO/UP Station and the future Mount Dennis GO/UP Station, with convenient connections to TTC streetcar service on St. Clair Avenue, a TTC bus loop, and direct service to Pearson International Airport.
