Map Turn restrictions at Matheson Boulevard and Matheson Avenue

What Is Happening?

Crews will be performing underground cable pulling to the traction power substation (TPSS) at Matheson Boulevard and Hurontario Street. Alctra civil work will take place at the Matheson stop.

What to Expect?

- Trucks and construction equipment may generate dust during construction.
- Crews will take precautions to monitor and reduce dust.
- Increased presence of construction vehicles and equipment can be expected in the work area.
- Work areas will be clearly marked or fenced off to ensure public safety.
- Please exercise caution around active construction sites.
- Work may be delayed or rescheduled due to weather or unforeseen circumstances.

Traffic Changes

- Minor delays may be experienced near the work zone.
- Southbound Hurontario at Matheson will be reduced for periods of time during the work. Signage will redirect traffic around the work zones.
- Southbound Hurontario at Matheson will be reduced for the duration of the work. Signage will redirect traffic around the work zones.
- Two-way directional traffic will be maintained during the work.
- A paid duty officer, flaggers and detour signs will be onsite to direct traffic as needed.
- All businesses in the area will remain open during the work. Please follow signage for access.

Pedestrian Access

- Temporary sidewalk closures or pedestrian detours will be in place while the work is underway, with signs in place to direct pedestrians as needed.
- Pedestrian detours may be required, with signs in place to direct pedestrians as needed.
- Clear and defined walking paths will be maintained during construction to ensure pedestrian safety.

Noise & Vibration

- Residences and businesses in the area may experience noise and vibration caused by construction equipment related to this work.
- Crews will take measures to minimize disruptions to the surrounding area wherever possible.
- Residences and businesses in the area can expect noise and vibration caused by construction equipment related to this work.

Transit Service

- There is no anticipated impact to transit services.

About the Project

Once in service, the 18-kilometre Hazel McCallion Line will bring a new, environmentally friendly and reliable method of transportation to a rapidly growing region. The new transit system will feature 19 stops, travel through two urban growth centres and connect to major transit systems including GO Transit (Milton and Lakeshore West lines), the Mississauga Transitway, Brampton Transit, ZUM and MiWay. The Hazel McCallion Line will operate in its own dedicated lane ensuring a smooth, reliable and convenient ride along the region's busiest street.
